Magnetite/Coal Float

Safety Data Sheet

Section 1: Identification

Product Identifier
Product Name - Magnetite/Coal Float
Synonyms - Iron Oxide, Black Iron Oxide, Iron Ore Concentrate, Magnetite Black, Black Iron

Relevant identified uses of the substance or mixture and uses advised against
Recommended use - Coal Float

Details of the supplier of the safety data sheet
Manufacturer - Global Magnetite, LLC
PMB 11
3735 Palomar Centre Dr., Suite 150
Lexington, KY 40513-1147

Telephone (general) - (859) 608-4260

Emergency telephone number
Manufacturer - (859) 608-4260

Section 2: Hazard Identification

United States (US)
According to the OSHA 29 CFR 1910.1200 HCS

Classification of the substance or mixture
OSHA HCS 2012 - Carcinogenicity 1A – H350

Label elements
OSHA HCS 2012

DANGER

Hazard statements - May cause cancer – H350

Precautionary statements
Prevention - Obtain special instructions before use. – P201
Do not handle until all safety precautions have been read and understood. – P202
Wear protective gloves, clothing, and eye/face protection. – P280

Response - If exposed or concerned: Get medical advice/attention. – P308+P313

Storage/Disposal - Store locked up. – P405
Dispose of content and/or container in accordance with local, regional, national, and/or International regulations. – P501
Other hazards

Section 3: Composition/Information on Ingredients

Substances - Material does not meet the criteria of a substance

Mixtures

Section 4: First Aid Measures

Description of first aid measures

Inhalation - Move affected person to fresh air. Administer oxygen if breathing is difficult. Give artificial respiration if affected person is not breathing.

Skin - In case of contact with substance, rinse with water.

Eye - In case of contact with substance, rinse with water.

Ingestion - Rinse mouth. Do not give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed

- Refer to Section 11 – Toxicological Information

Indication of any immediate medical attention and special treatment needed

Notes to physician - No specific actions or treatments recommended related to exposure to this material.

Section 5: Fire Fighting Measures

Extinguishing media

Suitable extinguishing media - Dry chemical, carbon dioxide, water spray or foam

Unsuitable extinguishing media - No data available

Special hazards arising from the substance or mixture

Unusual fire and explosion hazards - Material is non-combustible and is not expected to pose a fire or explosion hazard.

Hazardous combustion products - No data available

Advice for firefighters - Wear positive pressure self-contained breathing apparatus (SCBA).

Structural firefighters’ protective clothing will only provide limited protection.

Wear chemical protective clothing that is specifically recommended by the manufacturer.

It may provide little or no thermal protection.
Section 6: Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal precautions - Use appropriate Personal Protective Equipment (PPE). Do not breathe dust.

Emergency procedures - Contain spill and monitor for excessive dust accumulation.

Environmental precautions - Avoid run off to waterways and sewers.

Methods and material for containment and cleaning up

Containment/Clean-up measures - Sweep up and remove immediately. Avoid generating dust.

Reference to other sections - Refer to Section 8 – Exposure Controls/Personal Protection and Sections 13 – Disposal Considerations.

Section 7: Handling and Storage

Precautions for safe handling

Handling - Avoid breathing dust in excess of applicable silica exposure levels.

Conditions for safe storage, including any incompatibilities

Storage - Store in a well ventilated space.

Specific end use(s) - Refer to Section 1.2 – Relevant identified uses.

Section 8: Exposure Controls/Personal Protection

Control parameters

<table>
<thead>
<tr>
<th>Exposure Limits/Guidelines</th>
<th>ACGIH</th>
<th>NIOSH</th>
</tr>
</thead>
<tbody>
<tr>
<td>Quartz (14808-60-7) TWAs</td>
<td>0.025 mg/m³ TWA (respirable fraction)</td>
<td>0.05 mg/m³ TWA (respirable dust)</td>
</tr>
</tbody>
</table>

Exposure Limits Supplemental (OSHA)

- Quartz (14808-60-7): Mineral Dusts: \( (30)/(\%SiO2 + 2) \text{ mg/m}^3 \text{ TWA, total dust; } (250)/(\%SiO2 + 5) \text{ mppcf TWA, respirable fraction; } (10)/(\%SiO2 + 2) \text{ mg/m}^3 \text{ TWA, respirable fraction} \)

Exposure controls

Engineering measures/controls - Avoid creating dust or reduce dust emissions with engineering controls. Dilution ventilation. Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable threshold limit values.

Personal Protective Equipment

Respiratory - For limited exposure use an N95 mask. For prolonged exposure use an air purifying respirator with high efficiency particulate air (HEPA) filters. Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.

Eye/Face - Wear safety goggles.

Hands - Wear appropriate gloves.

Skin/Body - Wear long sleeves and/or protective coveralls.
Environmental exposure controls - Follow best practice for site management and disposal of waste.

Key to abbreviations
ACGIH = American Conference of Governmental Industrial Hygiene
NIOSH = National Institute of Occupational Safety and Health
TWA = Time-weighted Averages are based on 8th/day, 40 hr/week exposures

Section 10: Stability and Reactivity

Reactivity

- No dangerous reaction known under conditions of normal use.

Chemical stability

- Stable under normal temperatures and pressures.

Possibility of hazardous reactions

- Hazardous polymerization not indicated

Conditions to avoid

- Avoid generating dust.

Incompatible materials

- Oxidizing materials.

Hazardous decomposition products

- None known.
## Section 11: Toxicological Information

### Information on toxicological effects

<table>

### Route(s) of entry/exposure

- Inhalation, Skin, Eye, Ingestion
- Disorders of the lungs

### Medical Conditions Aggravated by Exposure

- Disorders of the lungs

### Potential Health Effects

#### Inhalation

**Acute (Immediate)**
- Exposure to dust may cause irritation. Processes such as cutting, grinding, crushing, or impact may result in generation of excessive amounts of airborne dusts in the workplace. Nuisance dust may affect the lungs but reactions are typically reversible.

**Chronic (Delayed)**
- Repeated and prolonged exposure to dust may cause lung effects including pneumoconiosis, silicosis, lung cancer, and an increase chance of tuberculosis.

#### Skin

**Acute (Immediate)**
- Exposure to dust may cause mechanical irritation.

**Chronic (Delayed)**
- No data available.

#### Eye

**Acute (Immediate)**
- Exposure to dust may cause mechanical irritation and corneal abrasions. Excessive concentrations of nuisance dust in the workplace may reduce visibility and may cause unpleasant deposits in the eyes.

**Chronic (Delayed)**
- No data available.
Ingestion

Acute (Immediate) - Excessive concentrations of nuisance dust in the workplace may cause mechanical irritation to mucous membranes.

Chronic (Delayed) - No data available.

Carcinogenic Effects - May cause cancer. IARC studies have shown sufficient evidence from animal studies to categorize crystalline silica as a group 1 carcinogen.
